

HERIZON

JEWISH VALUES. FEMALE VOICES.

COST OF BEING A WOMAN

MARCH 30TH, 2023 • 12PM-1PM • ZOOM

Herizon is committed to long-lasting social change to advance the status of all women and girls and increasing economic security and empowerment for women and girls. Healthcare costs for women between the ages of 19-34 are double the cost for men and this trend is also seen for women 65 and older. Our local and state-wide experts will discuss the reasons for the cost discrepancy, ways women who are uninsured or underinsured can still seek medical care and how we can advocate for women's healthcare costs.
