

Dear Community Partner,

Clewiston High School is hosting a Community Service Fair on Monday, September 29th, 2023 at the Clewiston High School Gymnasium from 11am-12pm. If you are unfamiliar with this layout just think of a College Fair and instead of Colleges we are inviting Non-Profits to come and set up a booth. If you need volunteers we need you. Set up will be available at 10am. The Fair will begin at 11 am - 12:00 pm. Students who are interested in community service opportunities will be invited to attend. Clewiston High School has a student body of approximately 950 students. Oftentimes students do not know how to get connected to service organizations. We believe this fair will be the perfect platform to connect our students to community service opportunities.

We hope that you will help us provide this enriching opportunity for our students. We believe that community service opportunities allow students to grow and connect with our community while learning invaluable life skills. Please let us know if we can answer any questions. You may reach us using the contact information below. We hope we can count on your support, and look forward to seeing you at Clewiston High School's Community Service Fair. Please feel free to share this information with your network of Friends.
