I hope this email finds you well. We at Community Greening wanted to reach out in hopes of helping you and your community facilitate a **free tree planting**.

Community Greening is an urban forestry nonprofit based in Boca – meaning our mission is to plant trees throughout South Florida, and we've recently launched a new program (Pick Up & Grow) in partnership with the Florida Forest Service. Pick Up & Grow aims to provide community organizations, such as nonprofits and places of worship, with the free trees, tools, and guidance to host their own tree planting on their property!

To apply for Pick Up & Grow simply visit our website, where you will find all the necessary information you need including the program requirements, the types of trees available, and the application.

If you have any questions or want more information, please feel free to reach out to our program coordinator, Shelby Fischer, at shelby@commnunitygreening.org.

Thank you for your time, and we hope to hear from you soon!

Warm regards,

Community Greening
