

Palm Beach County's Business & Industry Program (ESF-18) "Victims of Cyber" Webinar

See information below, and feel free to share with anyone who may benefit. We are all vulnerable.

Any organization, business, and or government can be a target for a cyber-attack. In recent years, numerous high-profile cyber-attacks have resulted in sensitive data being exposed. Join us **April 20<sup>th</sup> 9:00 am – 10:00 am for the Palm Beach County Business & Industry Programs “Victims of Cyber” Webinar.**

Hear from cybersecurity experts on what went wrong, and lessons learned from the 2019 Riviera Beach Ransomware attack. Also what can be done to prevent attacks, how to patch vulnerabilities, detect threats, and respond to breaches faster. From network security to application security and data security, each element of cyber security plays into your organization's overall security posture. Please see attached agenda for more information, and take a moment to register with link below.
